👤 Summary

Full-Stack Developer with 2 years of hands-on experience building scalable web applications using modern technologies including React.js, Python, Django, and Django REST Framework (DRF). Strong command of both frontend and backend development, REST APIs, database design, and responsive UI/UX. Passionate about writing clean, maintainable code and delivering impactful solutions.

⚙️ Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript, React.js, Bootstrap
- **Backend:** Python, Django, REST APIs
- **Databases:** PostgreSQL, SQLite
- **Tools:** VS Code, Git, GitHub, Postman, PyCharm
- **Architectures:** MVT, Microservices, RESTful Architecture

🧰 Experience

Netrex Solutions

Full-Stack Developer

- Developed full-stack web applications using React.js, Python, and Django and Django Rest Framework(Rest API's)
- Built responsive frontend interfaces with HTML5, CSS3, JavaScript, and React.js
- Implemented secure authentication systems and RESTful APIs
- Collaborated with engineering teams for planning, development, testing, and deployment
- Worked with Sqlite and PostgreSQL for database management and optimization

🔗 Projects

Role-Based User Management System (Full Stack)

Personal Project

- Built a full-stack user management system using Django REST Framework and React
- Implemented JWT authentication with role-based access (Admin/User)
- Developed secure APIs for user CRUD operations
- Integrated backend APIs with a responsive React frontend
- Technologies: React.js, Python, Django, Django REST Framework, PostgreSQL

Full Stack Booking System

Personal Project

- Built a full-stack booking system using Django REST Framework and React
- Implemented JWT authentication with secure login and registration
- Developed dynamic slot availability and booking functionality
- Integrated REST APIs with a responsive React frontend
- Technologies: React.js, Python, Django, Django REST Framework, PostgreSQL

Chat / Messaging System (Full Stack)

Personal Project

- Built a full-stack chat system using Django REST Framework and React

- Implemented JWT authentication for secure messaging between users
- Developed APIs to send, receive, and filter conversations
- Integrated real-time-like messaging UI with React frontend

E-commerce API (Django REST Framework)

Personal Project

- Built a REST API with categories, products, cart, orders, and user-specific data
- Added JWT authentication for secure user access
- Automatic cart creation per user and correct cart-item association
- Technologies: Python, Django, Django REST Framework, PostgreSQL

Social Media API (Django REST Framework)

Personal Project

- Built a Social Media REST API with user authentication, posts, comments, likes, and follow/unfollow features
- Implemented JWT-based authentication to secure API endpoints
- Added validations to prevent duplicate likes, self-follow, and ensure correct user actions
- Designed relationships to manage user posts, comments, and followers/following lists
- Technologies: Python, Django, Django REST Framework, JWT, PostgreSQL

Secure Digital Banking API (Django REST Framework)

Personal Project

- Developed a secure digital banking backend using Django and Django REST Framework
- Implemented JWT authentication and role-based access control
- Transaction system supporting deposits, withdrawals, and fund transfers using atomic database transactions
- Technologies: Python, Django, Django REST Framework, PostgreSQL, Simple JWT

Advanced Product Management REST API

Personal Project

- Developed a RESTful Products Management API using Django and Django REST Framework
- Implemented JWT-based authentication and permission-based access control
- Built secure endpoints for product creation, updates, deletion, and detailed retrieval
- Implemented filtering, search functionality, and pagination for efficient data handling
- Technologies: Python, Django, Django REST Framework, PostgreSQL, Simple JWT

Education

Bachelor of Science in Computer Science (BSCS)

Gomal University, Dera Ismail Khan, KPK

Current CGPA: 3.8 / 4.00

Relevant Coursework: Software Architecture, Database Systems, Data Structures, OOP, Web Development, Operating Systems

Languages

- English (Proficient)
- Urdu (Fluent)
- Pashto (Fluent)
